

**Meeting date:** 1 May 2025, 14:00-15:00

Meeting place: Lokale A1301-100, Indgang A, Palle Juul-Jensens Boulevard 11, 8200 Aarhus N

**Meeting subject:** LAMU

**Attendees:** Jørgen Frøkiær, Beatrice Tscherning-Olesen, Alma Bečić Pedersen, Henning Grønbæk, Per Højgaard Christensen, Trine Werenberg Mikkelsen, Tina Bach Aaen (referent)

**Absent:** Anna Bay Nielsen, Lars Henning Pedersen

1. **Approval of the agenda**

The agenda was approved.

2. **Result of Physical WPA 2025**

LAMU discussed the physical WPA 2025. 24% are not satisfied with the indoor climate, which is far too high number.

Monotonous repetitive work and lack of fire instruction are also featured in the report. Tina will send an email to everyone at CLIN about the fire course. Beatrice mentioned that the comments show that people are concerned whether the fume cupboards in Forum are not working as they should. The Technological Institute has tested a single fume cupboard, and it did not function optimally. The rest of the fume cupboards also need to be checked. Group 6 will create their own action plan regarding the fume cupboards in Forum.

LAMU decided to create an action plan for temperature regulation.

A positive aspect of the report is that more people are starting to seek advice from AMR in connection with discrimination. In this regard, we should consider whether AMR can gain more knowledge to handle the cases, as the AMR training – unlike the TR training – does not include tools for this. This will be discussed at a meeting later this year.

3. **Any other business**
